

Summer Teen

Enrichment Programs

INDIANA UNIVERSITY
SOUTH BEND

2018 Offerings

Creative Writing: Flash Fiction

June 25-29 from 1pm-4pm

Students will learn how to write flash fiction—a form of creative writing that tells a complete story in the fewest words possible. This entails learning how to edit their work, how to read each other's work and give constructive criticism, and how to get their work published.

Japanese Culture

July 9-13 from 1-4 pm

Students will learn about Japanese culture through activities like watching anime, making origami, cooking sushi (without raw fish!), and staging a Japanese Tea Ceremony. They will also learn some common Japanese customs and expressions.

Battle of the Bots

July 16-20 from 1-4pm

Students will learn basics of programming in Scratch/Python as they design and assemble a robot using Raspberry Pi and Lego parts, motors, and sensors. On the last day of camp, students will show off their work in a robot competition.

Seeing Green

July 23-27 from 1-4pm

Students will learn to identify and address issues of sustainability related to energy, food and water, waste, and social justice. Campers will work on a sustainability project of their choosing that will educate the public about a sustainability issue. They will also participate in sustainable gardening, green building tours, and a sustainability scavenger hunt.

WHAT IS STEPs?

STEPs is an activity-centered summer program for high school students entering grades 8-12. Taught by IU South Bend faculty, each of our one-week intensive learning “camps” introduces students to a different area of college study through lively, hands-on projects. All camps are limited to 15 students to ensure maximum engagement with our faculty.

REGISTRATION

Registration for each program is \$125. A 50% discount is available for students with financial need. To register for one or more STEPs camps, visit www.iusb.edu/clas/steps.

Registration begins March 10, 2018. For more information, contact Lee Kahan, Associate Dean of the College of Liberal Arts and Sciences, at 574-520-4267 or lkahan@iusb.edu.
