

Contacts

The Contacts page is a simple *point-of-reference* where you may verify that your account is linked to all the school records that you expect. This includes guardian links to students, and/or schools that you are associated with, either as a student or staff.

 **Note:** Depending on a specific school's account settings with SchoolMessenger, some contacts may display an arrow below them. Clicking that arrow will expand that contact to display additional information such as class schedule, grades, attendance, lunch balance or more. Not all schools provide that kind of information through SchoolMessenger, so it is perfectly normal to see no additional information beyond "Name", "School" and "Association".

 **Important:** *If there is a school or district that you expected to see on the Contacts page, but which is not showing, you will need to contact that specific school or district to ensure that the email address linked to your account records matches the one you use to sign in to InfoCenter. Once corrections have been made, you will need to sign out, then sign in again, to see them take effect.*
